Don't cry

Author's Notes:
Hi! It's a drabble written two minutes ago ;) But I have been planning this in my mind about two days. They delete my previous fiction, I hope that they won't delete this story. Enjoy!

He is sitting in the kitchen and he is crying. His face is sad. This shiny emerald green eyes just dropped another tear. I kissed him softly in a cheek to make him feel better.

He turned his head to me. His brown hair felt onto his shoulder."Hi babe" I kissed him. It was long and passionately kiss. "Why are you crying Larsie? Please don't cry" I said.

He responded: "They said that I should say that to you, but I don't wanna say that to my sweet baby. They want me to say you that you're outta the band."
